**EXAMINER'S AMENDMENT AND  
REASON FOR ALLOWANCE**

---

**BACKGROUND**

1. This action is responsive to the following communications: Amendment filed on 1/4/2008.
2. Claims 1-6, 9-25, and 28-44 are allowed in this case. Claims 21, 27, and 33 are independent in form.

**EXAMINERS AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Brian Haslam (Reg. No. 56,372) on 11/10/2008.
3. The application has been amended as follows:

In the Claims, please amend claim 1 in the following manner:

1. A method in an operating system for resizing an operating system interface element containing controls that have control definitions, comprising:
  - receiving a command to resize the interface element;
  - defining resizable regions of the interface element including determining whether each of the controls within the interface element is resizable, wherein defining resizable regions of the interface element includes ignoring an adornment control, the adornment control adjacent to an edge of the interface element, and the adornment control is any one of the following: a help icon, a separator, or a header;

cumulating a total score by adding a value associated with each control in a given column or row contributing its respective value to the total score for the respective column or row, the column or row being designated as resizable based on the total score for the column or row and a minimum height and width is maintained; ~~wherein defining resizable regions of the interface element~~ cumulating the total score includes either ignoring a control that is a last control in its row or ignoring a control that is a last control in its column;

adjusting the resizable regions in response to the determinations regarding the special row and the special column; and

resizing the interface element by resizing only the resizable regions of the interface element.

**In the Claims, please amend claim 11 in the following manner:**

11. A computer readable storage medium for dynamically resizing a window without altering operating system code, the window containing controls, the controls being defined by properties indicating respective positions of each of the controls within the window and control-type data indicating respective types of each of the controls stored in a memory, comprising:

receiving a command to resize the window,  
identifying for each control whether the control is resizable based on the control type and position of the control relative to any of the other controls within the window;

responsively to the step of receiving, dividing the window into subareas,

responsively to the step of dividing, dynamically determining whether the subareas are resizable based on the resizability of the controls that are at least partially in the subareas while maintaining any minimum height associated with the controls; wherein the determining whether the subareas are resizable includes;

ignoring an adornment control; and  
either ignoring a control that is a last control in its row or ignoring a control that is a last control in its column; wherein a control is the last control in its column when there are no controls ~~to the right of~~ below the control in its column; and wherein a control is the last control in its row when there are no controls ~~below~~ to the right of the control in i[[s]]ts row; and

resizing the window by resizing the resizable subareas of the window; wherein the resizing is executed independent of ignored controls.

### **REASON FOR ALLOWANCE**

6. The following is an examiner's statement of reasons for allowance: By this Examiner's Amendment, it becomes clearer that the claimed the computer-readable storage medium is only intended to cover tangible storage media consistent with the Specification at page 6.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
